

**Flat**  $\flat$  — A flat means to play the key that is a **half step LOWER**.

1. Find and play these flats on the piano.

2. Your teacher will call for any flat. Play that key on the piano.

F flat is a white key!  
C flat is also a white key.

### Rule for Flats

A flat carries through a measure, but *not* past a bar line. In a new measure, the flat must be written again.

## Super Secret Agent

Slowly

Your teacher will play a black key. Can you say both its **flat** and **sharp** name?

Teacher Duet: (Student plays *as written*)
